Gonçalo Gato

Two Different Pieces

for violin and piano

Programme notes:

Two Different Pieces were born as a compositional impulse tied to imagination and spontaneity. Compositional knowledge is always present in some way in pieces I write, but, in this case, composition is not so much based in systematic processes and techniques as in creativity arising each moment. In spite of this of the risks involved, it is a search for freshness, and a search for the immense potential one can find outside safe and tested compositional techniques. *Vortex* explores the idea of spiral, as well as something that contracts and accelerates. *Arch* derives from the piano part which features an arch-like melodic shape each bar.

London, May 2014

Execution notes:

- The dynamic ***n*** means *niente*, silence.
- Umeasured tremolo on the violin is always notated by using a 'z' on the note stem.
- Although glissandi on the piano are precisely notated, there exists a degree of freedom in executing its gestures. This is also true for the notated rhythm.
- The section starting on bar 62 is notated without time signature in order to easily accommodate piano configurations. The violin interventions are cued by the piano line.
